BUELL PEAT-POULTRY MANURE

"TWO-IN-ONE"

BUELL Peat-Poultry Manure is a complete, naturally balanced, organic fertilizer and soil conditioner, thoroughly ground and pulverized. It is free from weed seeds, practically odorless, and readily available as plant food. Poultry manure is one of the richest, complete natural manures known. In Buell it is blended with Peat Moss through long processing in poultry houses and by grinding at our mill.

Buell Peat Poultry Manure:

Contains all of the plant food elements of poultry manure.

Is an available and lasting source of plant food and organic matter.

Absorbs three times its own weight in moisture.

Releases moisture and plant food in solution as needed by the plant.

Aids bacterial action. Is safe to use, non-burning.

Uses: Topdressing old lawns and for building new lawns.

Golf course greens and fairways, cemeteries and parks, both topdressing and in new construction.

Around shrubbery. On small fruits. In greenhouses.

In flower and vegetable gardens.

For window boxes and house plants. In composting.

Applications: Topdressing: Use 5-10 lbs. to 100 sq. ft. (10 ft. x 10 ft.)

50-100 lbs. to 1000 sq. ft.

When mixed with soil: Use 10-20 lbs. to 100 sq. ft.

Window boxes and house plants: Mix three or four tablespoonfuls with each quart of soil or a little may be stirred into the topsoil if plants are already growing.

Applications should vary as to individual soil types and conditions.

Full directions will be found on each package.

Buell Peat-Poultry Manure is packed in 5-lb., 25-lb., and in 50-lb. bags.
